Professional Summary

A highly motivated and detail-oriented B.Tech CSE(Cybersecurity) graduate with hands-on training in Java FullStack Development. Proficient in Java, Spring Boot, Hibernate, REST APIs, and front-end technologies like HTML, CSS, JavaScript, React.js, and Angular. Skilled in designing and developing full-stack web applications with a strong understanding of SQL and MongoDB. Familiar with version control tools (Git) and agile development methodologies. Passionate about learning and implementing new technologies, solving complex problems, and delivering user-friendly software solutions.

Experience

Certified Java FullStack Developer

February 2025 – Present

Simplilearn | Link

Online

- Proficient in Java Spring Framework: Hands-on experience with Spring Boot, Hibernate, and RESTful web services to build scalable and secure backend solutions.
- Front-End Expertise: Skilled in crafting responsive and interactive UI using HTML5, CSS3, JavaScript, React.js, or Angular.
- Database Management: Strong command of SQL and experience with databases like MySQL, PostgreSQL, or MongoDB for efficient data handling.
- DevOps Deployment: Familiarity with version control systems like Git, build tools like Maven/Gradle, and CI/CD pipelines for smooth deployment.
- Problem-Solving: Strong analytical skills with a knack for solving complex challenges and optimizing system performance.

Pumo Technovation

July 2023 – August 2023

Web Designer Intern

Tambaram, Tamil Nadu

- Intern with experience in creating and styling web pages using HTML, CSS, and JavaScript.
- Developed responsive layouts, designed navigation menus, and enhanced website functionality for an improved user experience. Gained practical knowledge in front-end development and worked closely with a team to deliver visually appealing and interactive web pages.
- Gained practical knowledge in front-end development and worked closely with a team to deliver visually appealing and interactive web pages.

Projects

Password-checker | Link

Tools Used: HTML/CSS, JavaScript, Github.

- The password-checker app allows users to input a password and checks its strength based on predefined criteria such as length, use of uppercase letters, numbers, and special characters.
- It provides real-time feedback to guide users in creating secure passwords. Built using HTML for structure, CSS for styling, and JavaScript for functionality, it ensures a smooth and interactive experience.
- The app enhances security by helping users create strong passwords and avoid common vulnerabilities.

Movies App | Link

Tools Used: HTML/CSS, JavaScript, Github.

- This project is a web application that provides the OTT experience of online movies.
- It utilizes HTML, CSS, and JavaScript to deliver a user-friendly interface and fetches data using the Online Movies-DB API.
- The app will integrate features like user ratings, reviews, watchlists, and the ability to share movie recommendations on social media platforms.

Client Management Application | Link

**Tools Used: HTML/CSS, JavaScript, Angular
Mysql, Github, Agile, Jira Software.**

- The Client Meeting Application project is a web-based application designed to schedule, manage, and track client meetings efficiently.
- This project is build using Angular 11 + Spring Boot example with a CRUD App.
- The back-end server uses Spring Boot with Spring Web MVC for REST Controller and Spring Data JPA for interacting with MySQL database. Front-end side is made with Angular 11, HTTPClient Router.

Technical Skills

Languages: Core Java, HTML/CSS, JavaScript/TypeScript.
Libraries / Frameworks: React, Cucumber, JSON, Angular.
Tools / Platform: Git, VS Code, Jenkins, Docker.
Databases: SQL, PostgreSQL, MongoDB.

Education

B.S.Abdur Rahman Crescent Institute of Science and Technology.

Vandalur, 600048

B.TECH Computer Science & Engineering (Cybersecurity)

2021–2025

Certifications

- **AWS Technical Essential Updated:** Simplilearn | *Link*
- **AWS Cloud Practitioner Essentials:** AWS TRAINING AND CERTIFICATION | *Link*
- **JavaScript Algorithms and Data Structures:** Free Code Camp | *Link*
- **AWS IPv6 Design And Build Global IPv6 Networks:** AWS TRAINING AND CERTIFICATION | *Link*
- **AWS Developer Associate:** Simplilearn | *Link*
- **All About Planning and Designing UI:** Simplilearn | *Link*

Extracurricular

- Languages Known: English(Full Professional Proficiency), Tamil(Native Proficiency), Hindi(Limited Professional Proficiency), French(Elementary Proficiency)
- Government Typewriting English Senior passed : 35WPM.
- Solved 100+ Leet Codes with respect to Javascript and Core Java
